Kindly say, the brown planthopper threat to rice production in asia is universally compatible with any devices to read

Bibliomania: Bibliomania gives readers over 2,000 free classics, including literature book notes, author bios, book summaries, and study guides. Free books are presented in chapter format.

Brown Planthopper Threat To Rice

Megamelus scutellaris is a small planthopper insect native to Argentina. Researchers have been studying the effects of the biological control agent in extensive host-range studies since 2006 and concluded that the insect is highly host -specific and will not pose a threat to any other plant population other than the targeted water hyacinth.
