may leave residual dye in the washing machine after laundering the fabric. Dye producers commonly recommend a method for cleaning dye from the washer. 1 Remove...

How to Get Tie Dye Out of a Washing Machine? | Home Guides ...

The machine has a pump that forces the liquor movement inside the main tank. This pump is the heart of the machine since its inactivity during a dyeing cycle can cause the whole of the material to get wasted, or at least reprocessed. This main pump ensures the in-to-out and out-to-in movements of the liquor that happens during the dyeing cycle.

Process of Yarn Dyeing on High Temperature High Pressure ...

Dyes use for dyeing fabric in Jig or Jigger dyeing machine which is suitable for woven fabric than knitted fabric because jigger exert considerable lengthwise tension on the fabric. This is also particularly suitable for cellulosic fibers
