the horse from conception to maturity

Equine gestation facts and figures Equine gestation is the period from conception to birth. It averages 340 days, but may range from 320 to 370 days, with mares being known to deliver a healthy foal after 399 days. If a foal is born before 315 days, it is considered premature and if born prior to 300 days, it will usually be too young to survive.
